Brett Bowley

Winnipeg, MB - brett200410@gmail.com - Github Bearium-BB - Itch Page - Portfolio

Work Experience

Illumia Labs

07/2023 - 08/2023

Title: Junior Software Development Intern

- Designed GitHub workflow (Unity Github Workflow)
- Developed an interactive experience for aircraft

09/2023 - 09/2024

Title: Unity 3D Developer

- Architected and optimized Unity based API systems for VR and PC applications, enabling reliable communication with Large Language Model (LLM) services
- Developed multiplayer networking systems for VR experiences, supporting synchronized interactions across connected users
- Designed and implemented an interactive multiplayer gallery experience for an aviation college with PC and WebGL support, delivering educational content through immersive, cross platform gameplay
- Refactored and extended existing codebases to improve maintainability, scalability, and development efficiency

Technical Skills

Proficient at coding: JavaScript, HTML, CSS, SQL,C#,C++
Coding tools: Unity,Unreal Engine 5, XR Interaction
Teamwork software: Git, GitHub, Click Up, Slack
Developer platform: ASP.NET MVC,ASP.NET

Projects

Penrose Tower (Itch Page Penrose Tower)

Description: Endless metroidvania focused on continuous spellcasting until death

- Engineered a physics based movement system that delivered fast paced, responsive traversal
- Built a multi element spellcasting system with combinable effects, enabling rapid content iteration
- Created an event driven animation framework that improved behavior reuse across enemy types

Jimbo, Remember to Hydrate (Itch Page Jimbo, Remember to Hydrate)

Description: QWOP-like rage game inspired by Bennett Foddy, focused on rehydration

- Designed intuitive movement mechanics that balanced accessibility with a high skill ceiling
- Implemented a flexible grabbing system compatible with dynamic and static objects
- Refined gameplay through iterative playtesting, improving challenge and player engagement

Bear Catacombs (Itch Page, Bear Catacombs)

Description: VR arcade rail shooter developed as a 2 to 3 day personal challenge

- Built score and progression systems that encouraged replayability through high score competition
- Integrated VR gameplay systems and third party assets into a cohesive, polished experience

Education

Red River Polytechnic Game Development Programming, Game Development Diploma Advanced

Red River Polytechnic - Winnipeg, MB

2025-Present

Computer Science Diploma

Manitoba Institute of Trades and Technology - Winnipeg, MB

2021-2023
